We need your help – now

HELP US RAISE MONEY

We are fighting for the new hospital the people of West Herts deserve. We need to act fast or the available government funds will be spent patching up the dilapidated and dysfunctional Watford General hospital.

What would you rather have:

- A brand new 21st Century acute general hospital
- The latest technology
- Buildings that are future-proofed
- Centrally located with good public transport and plenty of free parking

or

- Hundreds of millions spent on patching up Watford
- Massive disruption for 12 yrs
- A hospital that lags behind in major diagnostics
- Bed shortages, queuing ambulances, patients in corridors

We aim to go direct to the Department of Health with costed plans for the hospital you, your children and your grandchildren deserve

We need to raise £38,000 to pay experienced hospital architects to help us prepare our business case. Please make a donation, however large or small, to our crowdfunding website:

or directly into our bank account: West Herts 21C Hospital Solution
