

# West End Car Park Improvements

West End car park at Nomansland common is going to be improved. This small car park is to be resurfaced, have improved drainage, bollards installed around the edges to stop people parking further onto the common and the sightlines along the road cut back to improve visibility. Access will also be improved for pedestrians and a special horse path will be created to avoid crossing the car park.

For contractors to undertake these works quickly and safely the car park will need to be **CLOSED** from **Monday 18<sup>th</sup> February** for approximately **3 weeks**, weather dependant.

Please park in alternative car parks and follow any on site instructions. Sorry for any disruption and thank you for your co-operation.

To find out more about this and other projects coming up contact:

St Albans City & District Council on 01727 819366 or visit <https://www.stalbans.gov.uk/nomanslandcommon>
